NEWS RELEASE – February 23, 2015

Spirit Communications completes purchase of SCANA Communications Inc.

COLUMBIA, S.C. (February 23, 2015 8:30 AM EST) – Spirit Communications announced today the completion of its acquisition of SCANA Communications, Inc. (“SCI”), including its interest in FRC, LLC, (“FRC”) a fiber network joint venture between SCI and Spirit Communications.

“The acquisition of SCI is a major milestone for Spirit and a key piece of our long-term strategy. This acquisition supports our facilities-based focus, increases our fiber footprint in South Carolina and improves the fundamentals of our business, both operationally and financially. We are acquiring a significant amount of fiber in South Carolina along with our joint interest in the FRC partnership, a multi-state fiber network”, said Bob Keane, President and CEO of Spirit Communications. Spirit Communications is also acquiring SCI’s cellular tower business, which includes the construction and management of cell towers for wireless carriers in the Carolinas and Tennessee. “This acquisition combined with our current operations makes us the largest fiber-based Competitive Local Exchange Carrier (CLEC) in the state of South Carolina and continues our investment in North Carolina”, added Mr. Keane.

SCI is the telecommunications subsidiary of SCANA Corporation (NYSE: SCG), a South Carolina-based energy company that has been doing business in the Southeast for 160 years. SCI’s fiber network includes over 1,125 route miles of dense long haul and metro fiber, and extends across multiple markets in South Carolina, as well as in North Carolina. SCI’s existing services include Metro Ethernet, long haul high bandwidth IP Transport and SONET-based transport capacity, and state-of-the art data center and co-location facilities.

“Spirit Communications and SCI have partnered to provide communication services to Carrier, Enterprise and Government customers for almost 30 years and today brings together two of South Carolina’s most respected companies known for providing cutting edge communications to businesses across the Carolinas. In addition to the outright purchase of SCI, the agreement between SCANA and Spirit Communications builds on the longstanding relationship we have both enjoyed for many years and increases our commitment to serve SCANA and all South Carolina businesses, government agencies, medical institutions and research universities”, continued Mr. Keane.

About Spirit Communications

Headquartered in Columbia, South Carolina, Spirit Communications provides voice, data, Internet and fiber optic solutions, along with a full suite of Cloud services to commercial businesses and government agencies across the Southeast. The company’s mission is to enable customers to transform their operations through fast, stable and secure offerings that flex with business demand. Ranked among the top 25 privately-held firms in South Carolina, Spirit Communications serves thousands of customers in over 150 service locations throughout South Carolina, North Carolina and Georgia. Spirit Communications is owned by eleven Independent Telephone Companies in South Carolina. For more information, visit www.spiritcom.com.
